An Interesting Session Held Last Night and Much Business Done.

The Matter of Waterworks, Sewerage and Fire Department Receive Attention.

The offer was accepted on motion of

Councilor Dixon.
Councilor Henrichsen stated that the committee requested a reduction of 20 per cent, but it it seemed from the communication that they have only cascaled to allow half that amount.

A communication from the city as-sess or and collector, representing that he was enjoined by action in the Dis-trict Court. from collecting certain taxes assessed in 1880, against parties living outside the limits of Provo City, namounting to \$100.55 was read. The assessor juryed that he he relieved of callecting these taxes, and be gradied up with the amount stated. On motion of Conneilor Henrichson the petition was granted. Too following communication was

then road: The Honorable Board of City Councilor

Proto City: GENTLEMEN - Much discussion is being hanged in by your citizens in regard to the your citizens in regard to the your questions before you concerning waterworks, sewerage, in spraces ion, etc. Having had some the committee on police and or training to whom was referred to regard to the vibil quistions below from experience, and experience in these matters, permit me to say a few words. Perhaps I might atrice the right addition and my ideas be of busels.

Water Contract The city should own

sistem, so much in ass in cates have his reasons was on account of the fact ing no matter to side water, might be that the city datase own the land on

and the saids. To lide water, might be successfully operated eare, and to some enterprising company even temperature of the successfully operated eare, and to some enterprising company even temperature of the successfully operated eare, and to some enterprising company even temperature of the successfully operated eare, and to some enterprising company even temperature of the successfully operated eare, and to some enterprising company even temperature of the successfully expensive.

Councilor Galacier Considered the successfully expensive, the committee of the successfully expensive.

For Protections—Your fire or disasses should define the strength of materials to be used, also a permit for building should first the obtained by your different without, it should be force a compact the said mathers as size before a compact the successfully expensive.

Councilor Galacier Councilor Mater moved that at the construction should be some in similar that the construction should be some in similar that the construction should be some in similar that the construction should be successfully expensive.

To my mind it seems the most sairs feature way for the city to construct these categories and the respective of the successfully sowned a material growth and prosperity, beware of letting private monopolies hold be reading in the least of the successfully sowned as material growth and prosperity, beware of letting private monopolies hold be reading in the least of the successfully sowned as material growth and prosperity, beware of letting private monopolies hold be reading in the least of the successfully sowned as material growth and prosperity, beware of letting private monopolies hold be read that not succeed the successfully sowned as material growth and prosperity, beware of letting private monopolies hold be reading in the constitution of the successfully sowned as material growth and prosperity, beware of letting private monopolies hold be reading and prosperity, beware of letting private monopolies hold be reading a

The committee on streets and aleys, to whom was referred the claim
of A. J. Stewart, Jr., \$182.50 for reestablishing section corners, etc., resorted they found that some of the work alleged to have been done was unauthorized. They recommended that \$65 of the claim be allowed, that being the amount justly due. Councilor Mailen thought if the

Councilor Mainen thought it the work not nuthorized and done by Mr. Stewart was advantageous to the city, yet in view of the fact that it had not been ordered the committee to whom the claim was referred. They could not do otherwise than recommend that the amount for work not authorized be an otherwise.

some Repairs to be Made in the City Jail in Accordance with Report of Committee.

The City Council met in adjourned session last night, with Mayor Booth in the chair. Councilors Laddiard and Dunn were the only members alsent. A communication from the Proce Woolen Mills Co., offering a reduction of ten per cent. on all are lights or dered by the city hereafter was read. The offer was accepted on mation of

urate papers could be made out from he corners established by Mr. Stewart, and hence all the work undoubtedly was of much advantage. Yet he, as cliairman of the committee to whom Mr. Stewart's claim had been referred, could not report favorably on the estire amount. Mr. Walter Scott, chairman of the

committee on streets and allers of the late City Council, then explaned the the city country, their Expands of the work of re-establishing the section corners and quarter section corners of the townsite entry being done.

The report of the committee was adopted and the sum of \$55 appropriated.

The committee on streets and alleys whom was referred the franchise or gas works submitted by J. H. Van

from et al., reported that they had found many errors in the franchise, and therefore had prepared a substitute, which was submitted. The committee recommended the substitute

The firete. The city should own and operate them. He reservoir become siructed near the mouth of Proto example of the firete had, gravitation them are not be mouth of Proto example of the firete had, gravitation them are not covered to be seen as a such are planed in the reservoirs to town, and a pipe line taken from there an auxiliary paints to be decated, say in the basement of year new City Hall, would do all the service until year city muniters from there is the chapter population. committee on quarantine.

The resolution, granting a franchise to J. H. Van Horn et at, for coastracting gas works in Provo, was then taken up and placed on its first reading. It provides for active work to be compand within all manufacturers. nenced within six months after grari-ng of franchise, and at least one mile f main to be laid within one year. It requires the execution of a bond in the benal sum of \$5,000, which will be lectured forfeited in the event of the work not being completed as provided or. Fifty years is the term of the

for. Fifty years is the term of the proposed grant.

On motion of Councilor Dixon the bill passed its first reading and the city Recorder was instructed to furnish the Council with printed copies of the same at its next session.

Councilor Dixon then introduced a bill to amend the liquor ordinance. The bill proposes to around the ordinance so as to remove billiard tables, not only from the "room" in which liquor is soid, but from the "building."

On motion of Connellor Mailton the ill passed its first reading. Councilor Dixon arose for informs councillor Dixon mose for informa-tion as to whether, in the event of all the canal companies in the city consoli-dating their interests in the construc-tion of a union canal on the east side of the river, the city would stand the expense, or whether each company would be required to pay its own pro-nortion.

portion. Councilor Giazier had heard expressions from scarcholders in the several canals which led him to believe that ther all seemed in favor of doing ba-greater portion of their assessment work this spring on the city canal in the event of the work being decided

CHAINSD TO A COMPSE. An American's Awful Experionce in a Siberian Mine.

Bosron, Feb. 8.-The Herald, to BOSTON, Feb. 8.—The Heroid, co-morrow, will publish the story of Cap-tain Morris, relating his experience as a prisoner for three years in a Siberian coal mine. Captain Morris says he was captain of the achooner Heloud, which saided from Vokohoma, April II, there are sense for writes. They can-Sieur; demurrer to complaint; A Bal-linger for plaintiffs, and Geo Suther-land for defendant.

obliged to send up ten tons of coul per day for the first year and six tons per day for the other years. If the stated amount of coal did not come up, no rations would be given them.

Captain Morris was fastened to a Pole, the chain being eight feet long. After being fastened the Captain saw no one but the Pole until he was liberated, not being allowed to leave the mine during the entire three years, sleeping on the floor of the mine and subsisting on rice soup. At the end of three months his companion died, but no one came to release him from the body. At the end of fifteen days, the Captain cut the Pole's body in two with a shovel and got it upon a lead of coal. Captain cut the Pole's body in two with a shovel and got it upon a load of coal. When Morris came out he found that F. C. Crocker of Soursport, Maine, one of his crew, had just been released. Together they walked 150 miles to Vladivostock, the Russians refusing them transportation. They were coalbegrimed, ragged and sore from lites of vermin. An American vessel took ther to Nagasaki, where the United Sta Consul provided them with clothing and they took their first bath in three years. The Consul turnished them with transportation to Yokoloma, from whence they went to Sau Francisco, Morris finally reaching Boston, his native place, last November.

ton, his native place, last November. Last Friday by left the house of a friend to come to this city, and since
